Extraordinary place, With extraordinary people ! Since day one you can count on everyone from the school, the moment you arrive from the airport to the day you leave! A place that propose you so much option, Not just korean language ! You Also have Kpop course that focus on dance and singing! Intensive korean course that help you catch up when you struggle ! English course for those who wish to learned it ! But most importantly ,you can also focus on your interest, and having course that are not officially offer (Like for me acting course) and you can also focus on one of your choice and take private lesson. You have special event, that show you the country, the culture, The food ! The greatest assets that Rolling Korea have is their team : The Directors, The staff, the teachers, they really care about you, they always there to help you the best they can : Finding hairdresser, barber shop , taking you to buy sims card ect... in short without them the school would be nothing else then a simple school, But everyone, Share in that school a passion which make you progress much more quickly than a normal school. For all of those positive point i would say, Go for it, You will gain not only knowlegde but also friends, and you will make a important network of people with who you can work and will help you. if you have any interest of living in korea And certain domain you search. Rolling Korea is not just a school, it's a network of very much important people that can lead you to a bright future !

I loved everything about Rolling Korea, from the curriculum and activities to the kind instructors and staff. RK provides a fun learning environment and although I was only able to attend for a short period of time, my Korean language skills greatly improved. Everyone here is so friendly and welcoming, and the school itself is a trendy and clean space in a great location. If I ever get the chance, I'd love to come back. Thank you RK!

It's been almost a year since I spent a month at Rolling Korea and it's not an exaggeration when I say that I have thought about my time there almost every day since coming back. The staff, teachers, and my fellow classmates were all wonderful people. Everyone was very helpful and the classes were very informative. I had such a good time that I ended up extending my study period there, which was no problem at all. I'm looking forward to hopefully coming back in the near future!
